

Bike Swags

These are specialised swags for those wanting compactness.

They are made with 8oz canvas and have a 2' x 1" high density foam mattress while the shape is like our other swags.

A standard thermarest (self inflating mattress) can be used with these swags to make an even more compact swag. The width is narrower than a standard swag to make it ideal for travel on a motorbike. The bike swag is available as a 6' length model with a mozzie net as optional. Total weight is approx. 3kgs. It is also available in a 6'8" length model also with the option of a mozzie net. Total weight approx. 4kgs.

Joey Swag

The mattress is 4'4" long and the swag has all the features of our Deluxe swag. The beauty of the swag is the kids can roll it up themselves and we provide an extra handle for them to carry it.

CC Swag

“The CC Swag”

- * When rolled out there is a leather patch to put your name on for identification.
- * Provision to tie the swag to a tent shape to prevent water ‘puddling’ during rain and helps with ventilation on hot nights.
- * Flap at top end to provide extra shelter.
- * Pocket for incidentals.
- * Optional Mozzie Net – pulls up to a complete tent and can be used on its own on a hot night or with the canvas over on a cool night. When not needed unzip and roll to the foot of the swag and tie out of the way.

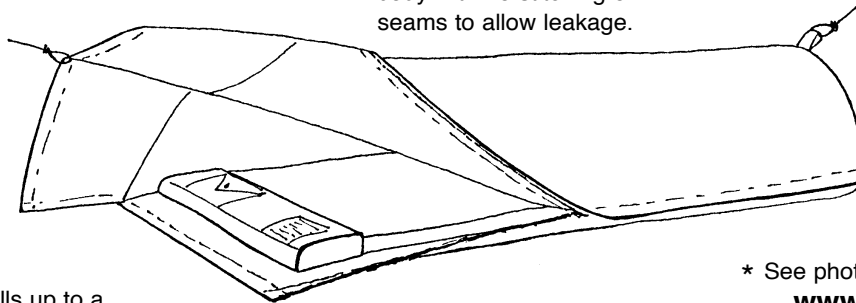

Deluxe Swag

Available with all the above features, with a 2’2”, 2’6” and 3’ wide mattress and optional mozzie net.

- * Made from durable Australian made 11.5oz rot and water proofed, polycotton canvas (it breathes).

- * Choice of colours:
Green, Brown, Beige, Blue, Pink or Purple.

- * One sheet of canvas over your body with no stitching or seams to allow leakage.

- * 6’6” high density 2” sanitised foam mattress (covered) which provides quality comfort that doesn’t collapse with age.

Double Tropical Swag

This Swag includes the features as mentioned but is 4’4” wide with 6” high walls and a zip on each side so that both persons can be comfortable and not feel shut in. It is available also with the mozzie net for complete comfort.

- * The foot end of the swag is enclosed (to keep your bedding in) and of the same height as the head end, giving your feet room to move. (Many of our customers enjoy this feature!)

- * Strong stitching (No. 12 polycotton). Poly is strong and UV tolerant, cotton swells when wet, thus helps keep the water out.

- * We only use top quality chunky style zips.

- * See photos of our swags on our website:
www.candycanvas.com.au

Tropical Swag

This Swag has the features as above plus a full zip on each side. Extra eyelets in the canvas allow it to be tied up in a way that will shelter you from the rain, but also allow air flow for humid conditions. Available in 2’6” or 3’ wide.

The mozzie net is a standard feature. This swag is ideal for hot humid conditions whilst also keeping you warm when it’s cold.
